## **LEAD AUDITOR TRAINING FOR THE ISO 14001 ENVIRONMENTAL MANAGEMENT SYSTEMS**

The Foundation course in Environmental Auditing will equip trainee environmental auditors with the basic knowledge/awareness necessary to effectively participate in environmental audits and other related activities.

### **On completion of this course participants will have:**

- Knowledge of the implementation and requirements of Environmental Management System (EMS) standards.
- Knowledge of the contents of an environmental policy.
- An understanding of how to develop an environmental policy using real policies from a number of companies as examples.
- Consideration of the inter-relationships and differences between the ISO 14000 series, EMAS, the ISO 9000 series and Total Quality Management.
- A clear understanding appreciation of types of audit protocols (e.g. checklists and professional judgement) and the advantages and disadvantages of each approach.
- An understanding of the similarities/differences between auditing an EMS and Quality Management System
- An overview of roles and responsibilities of all national environmental regulatory agencies.
- An appreciation of how to identify the environmental aspects/ impacts of an operation.
- An appreciation of the importance of biodiversity to business

**This course is accredited by the South African Auditor & Training Certification Association**

### **Who Should Attend**

Open to all developing careers in environmental auditing; environmental and quality professionals who will be conducting, managing, or participating in external (i.e., second-and-third-party) audits, or developing, implementing, and managing an EMS.

**Date: TBD**

**Time: 8.30am – 5.00 pm**

**Cost: \$9,000.00 (vat incl.)**
